

Sanford Health – EMS Education

South Dakota Monthly EMS Education Program

For more details contact us at EMSServices@sanfordhealth.org or call 605-328-6389

Sanford Health would like to present a sustainable option for a continuing education by fulfilling both State and National Registry of EMT's NCCP (**National Continued Competency Program**) education requirements. This program will provide learners with the convenience and ease of maintaining EMS continuing education from the comfort of their home and/or community. This model builds upon an existing platform that has served EMS agencies in the region for over 20+ years. Learners will now utilize modern technology and video communication to achieve educational needs through LIVE (Live Interactive Video Education) video broadcasts and interactive on-line learning.

As a commitment to sustain the ongoing demands of EMS continuing education, Sanford Health will be delivering LIVE monthly education to EMS agencies through video broadcast sessions multiple times each month. EMS agencies and participants will have the ability to select the date of their LIVE video broadcast sessions. Broadcasts will occur each week on Monday evenings from 6-8pm CST and the first Wednesday of the month from 7-9pm CST.

Each individual learner account will have access to multiple education modules that match NCCP requirements through the use of LIVE interactive learning modules. Individual education records are now available on-line to display completed courses and course options. Learners are able to upload external courses and classes to their education log for a cumulative record demonstrating their educational accomplishments.

Enrollment for the educational program is coordinated through local EMS agency participation across the state and region. The individual membership fee of \$100 per year is sponsored by a South Dakota RHTP grant awarded to Sanford Health. Contact our office for more details and enrollment information on the program. Thank you to the South Dakota Department of Health for this valuable investment into EMS and their generous support of EMS continuing education in South Dakota by supporting this amazing opportunity. **South Dakota residency and agency affiliation is required for grant eligibility of the free education.

This project is supported by the Centers for Medicare & Medicaid Services (CMS) of the U.S. department of Health and Human Services (HHS) as part of the Rural Health Transformation Project Program, a financial assistance award totaling \$761,745.00, with 100% funded by CMS/HHS. The contents are those of Sanford Health and do not necessarily represent the official views of, nor an endorsement, by CMS/HHS, or the U.S. Government

Education Plan covering the NCCP requirements
